Time to Upgrade Your O-face: The Shot Heard 'Round the Bedroom'

Listen up, ladies... There's a new shot in town, and it's got nothing to do with tequila. Dr. Cheri Ong is serving up something way more potent - it's called the O-Shot, and it's got women buzzing, **"and the results are AMAZING!"** raves our O-Shot enthusiast.

"It's easier and quicker to climax, orgasms are better, and I can even have multiple ones now!"

"I've always had a difficult time achieving orgasms, like most of us ladies out there," confesses one satisfied patient. "After trying a few other things first, it was suggested to me to try the O-Shot."

Now, if you're thinking this sounds too good to be true, you're not alone... Hang onto your panties, because it gets better. **"It sounds daunting... but it was not AT ALL!"** our O-Shot convert continues. **"They numb you very well with a cream (and honestly... the numb feeling was the weirdest part of the whole process) and I literally felt NOTHING."**

In a city known for its nips and tucks, Dr. Ong's zeroed in on a part of your body that's been begging for attention. And she's not just tweaking - she's transforming.

That's right... it's not just about mind-blowing orgasms (though let's be real, that's a pretty sweet perk). Women are walking taller, speaking louder, and taking on the world with a new fire in their belly and a spring in their step.

"The O-shot has changed my life!" another patient exclaims. **"It was painless and quick! They answered all my questions professionally and knowledgeably! And it worked like a charm."**

So, ladies, here's the million-dollar question: Are you ready to join the O-revolution? Are you ready to upgrade your O-face? It's time to stop faking and start shaking. Your clitoris has something to say, and Dr. Ong's got the megaphone.

Call 480-771-7771 or strut over to OngInstitute.com. Your new O-face is just a shot away.

Remember: In Scottsdale, they don't just lift faces – they elevate orgasms. And Dr. Ong? She's taking that elevation to a whole new level.

So, what are you waiting for? Your vagina called. It's time to listen to it. As our O-Shot convert puts it: **"I absolutely recommend this to every lady out there like me who has difficulty with the big O! Worth it, girls!"**

Legacy Launch Pad founder, *New York Times* bestselling author Anna David, AKA the one you call when you're ready to build your authority with a book.

GENIUS NETWORK SUMMARIZED IN 3 SENTENCES:

- 1 Genius Network was founded by Joe Polish in 2006 and developed into a community of **generous, giving, contribution-oriented** high-level Entrepreneurs who connect and grow with each other.
- 2 This is an exclusive, high-level group where Members can share and test their new strategies, techniques, and results to **help grow a business that is E.L.F.** (Easy, Lucrative, & Fun).
- 3 Members of Genius Network get elegant insights and **"ideas worth using"** so they avoid the biggest obstacles and challenges most businesses face, and get access and connections to a cooperative, creative group of achievement-minded Entrepreneurs.

THE 5 BIG IDEAS OF GENIUS NETWORK:

- 1  Makes your business more E.L.F. (Easy, Lucrative, & Fun) through the **collective wisdom** of Genius Network Members utilizing E.L.F. Tools.
- 2  **Connects you** to other Genius Network Members at monthly and annual meetings; and leverages your Genius Network Membership to eliminate the guesswork of how to reset your company into hyper-growth mode.
- 3  **Converts your business** from having a H.A.L.F. (Hard, Annoying, Lame, Frustrating) model to the E.L.F. paradigm—Easy, Lucrative, and Fun— for accelerated growth, scalability, and more streamlined operations.
- 4  At the heart of Genius Network is the core philosophy of **generosity and contribution**: **"Life Gives to the Giver."** This ethos, which is the actual title of one of Joe Polish's books, shapes the Genius Network Community and its Membership culture.
- 5  What makes Genius Network unique is that it doesn't matter if you're running a 7- 8- or 9-figure business... as a Member, you'll learn to grow your business not just through Strategy and Sales, but through **Elegant Ideas and Actionable Wisdom**.

- I want HELP I want help scaling the online business to increase my impact and share with others what I have learned so that they, too, can achieve seemingly impossible results.

BIOGRAPHY

In 2007, my wife, Becky, and I embarked on a life-changing journey when we welcomed our first adopted child, Anna, into our home. Frustrated with a medical system that offered limited hope for her future and suggested invasive procedures, we knew there had to be a better way. This realization led us to explore alternative approaches and sparked a profound transformation in our lives.

This shift not only influenced our personal choices, such as our diet and living environment, but it also gradually reshaped my professional perspective. Inspired by the lessons we learned and the positive changes we experienced, I reevaluated my approach to medicine, ultimately leading me to establish a functional medicine practice.

Today, my brick-and-mortar practice serves as a haven for people from all over the country grappling with complex, undiagnosed health issues. These patients, often overlooked by traditional specialists and university medical centers, find hope and support through our cutting-edge medical therapies that are difficult to find elsewhere.

Through this transformative journey, both my personal and professional life has been enriched. I am committed to sharing the invaluable knowledge and experiences that have shaped my approach to functional medicine, while also learning from the diverse perspectives and expertise of others. Together, we can make a positive impact on the lives of countless individuals, empowering them to take control of their health and well-being.

You can call me Becky, but in writing, I love to see "Rebekah". I'm a mom of three with a background in occupational therapy. My journey has taken some interesting turns over the years, including adopting one of my patients (our oldest daughter, Anna) when her foster home was closing. I've worked with children with a variety of diagnoses and bring a unique perspective to the intersection of health and wellness. My superpower is conducting in-depth research on almost any topic. Lately, I am enjoying diving into AI and thinking through the possibilities - my ultimate dream being to create something akin to our own "Super Brain" to leverage Aaron's insight, training, and knowledge and make it accessible to anyone needing healing and hope. Having dealt with my own chronic health issues, I have a deep desire to see others living healthy, vibrant lives. He founded YT Era in Jan 2022, a comprehensive YouTube marketing solution that seeks to redefine the conventional marketing strategies employed by businesses and entrepreneurs. YT Era emerged not just as a business, but as a beacon of hope and change in the rapidly-evolving digital landscape. Who does Andrew want to be a hero to? People who find themselves at rock bottom, just as he did five years ago. Andrew's purpose is to connect with individuals who can't see a way out, who grapple with feelings of failure. Through impactful business YouTube channels, his mission is to uplift and empower these people, using the platform to change the world.

- That GETS More leads, increased revenue, more efficient use of resources, big returns from small commitments.
- I want HELP Setting up my own online assets, more exposure, start my email list and semi-paid group, a full pipeline so I can spend all my time helping people with business and marketing strategy.

BIOGRAPHY

I planned to write a clever bio during my layover in San Jose, but I ended up taking an elderly woman in a wheelchair to the bathroom. There were no airline attendants and the gate agent couldn't even watch our bags. So I asked a man in another wheelchair to watch our carry-on bags (no way HE could take off with them!) and helped my new friend.

So here are the facts:

Born and raised in Denver, CO as an academic nerd (valedictorian, full academic scholarship to Vanderbilt, Truman Scholar, etc.)

Escaped becoming a ski bum by moving to Hawaii where I discovered the joy of golf on a bank expense account. In my spare time I convinced wealthy people to rearrange their financial lives and pay us thousands of dollars a year to make sure everything went smoothly when they died. Plus I trained others to do the same. My most effective seminars took place at the 19th hole.

Turns out that was like Navy SEAL boot camp for selling things people can taste, touch, test drive, see results while they're alive, and even get a money back refund!

After returning from my decade sabbatical, I reinvented my Aerospace company and launched and invested in a number of complimentary businesses over the last few years and have never been more excited to transition from a crazy entrepreneur to a "Next Level Founder"!! I'm an all-season outdoor enthusiast... mostly powered adrenaline sports and nearly all activities ending "ing"... boating, fly fishing(passion), skiing, snowmobiling, shooting, hiking, mountain biking, paddle boarding, off-roading, etc... the best part is enjoying these amazing activities while "working" and creating memories with my family and friends. Life hasn't always been this fun...I know pain and childhood trauma... suffered (like most entrepreneurs) from horrible ADD, OCD and dyslexia, dad left me at 12, lost my brother at 26, blinded in my left eye at 26, horrible relationships, health issues, bad alcohol and food addiction, gained over 100lbs, business failures losing millions.... Then I created lvn|kzn and LegacyMaker.co, wrote my first book "Your Life Is Not Your Fault...Until It Is" and life became fun and exciting... I lost 104 lbs, developed amazing relationships and in the best mental and physical shape of my life. My passion and super power is helping others discover and monetize their unique ability. I know how much it hurts to doubt yourself or to put yourself on the back burner. I hate that feeling. On the other hand, I know what it's like to feel amazingly confident. I know what it is to put myself first, to realize that I can accomplish all I need to accomplish without neglecting my own self-care. Now that's a feeling I can get behind and can seek every day with pride and happiness. IMAGINE THIS... What if a woman reduced the number of days she felt down on herself? What if the number of days she didn't move her body or didn't make healthy food choices steadily dwindled, and she stopped rejecting her mate in the bedroom just because she felt tired or bad about herself? What if more days of the year she felt powerful and made the right decisions – and the number of days increased every year?

BIOGRAPHY

Classic overachiever (still living in denial) looking for a better, more satisfying lifestyle, loves to work with people who still believe that they can make a difference in this world. By trade, I have a law office that specializes in family owned and privately held businesses, helping those businesses to grow. We are business people first, as I have been a real estate developer and involved in a corrugated box plant started from a greenfield operation. I like to think that the lens that I look through is different than any other law office as we think business issues first, as I have been there myself. I love to learn from learning from Dan Sullivan in Strategic Coach™ to a Master Mind Group with Nido Qubein, or reading a book to learn about why we should be optimistic for the future of our planet. I have been active on the boards of a number of charities in my area, including as President of the Naperville Area Humane Society, Board Member on DuPage Community Foundation and Secretary of the Heritage YMCA, as well as being a member of The Rotary Club

Dr. Don Wood

- I've GOT I focus on finding underserved niche markets and I patiently pursue these opportunities.
- That GIVES Our company delivers a cutting-edge neuroscience approach to finding peace and increased performance.
- That GETS We deliver life changing results by eliminating the effects of disturbing and traumatic events.
- I want HELP Our goal is to reach a larger audience in an effective and profitable way.

BIOGRAPHY

Dr. Don Wood, PhD developed the TIPP method after spending years researching how atmospheric conditions™ (our past experiences that have shaped us) affect our minds and impact our lives.

Disturbing or traumatic events from our past shape the way our minds respond to current events, and impede our ability to live calmer happier lives. Through his own family's story, Dr. Wood was able to see how trauma affects a person's thinking patterns, behavior and health - and how it can be solved.

"Teaching people to live with, manage and cope with their trauma and daily stress doesn't fix the problem. The solution comes from understanding its source and providing a long-term permanent solution. Both my wife and daughter experienced childhood trauma and I saw how it affected their life, including their health; they both had developed autoimmune disorders."

In his search for answers, Dr. Wood made the connection between trauma and their health issues. He understood that merely coping and medicating wasn't the answer. All that was treated were symptoms, not the cause. But without getting to the root cause, healing was never possible. We need a better solution.

His experience with his family provided the determination required to conduct comprehensive research and develop a cutting-edge, neuroscience approach, a holistic solution that provides immediate and long lasting relief: the TIPP program.

The TIPP program has benefited individuals all over the world. The results have been impressive. Dr. Wood has helped trauma survivors from the Boston Marathon bombing attack, the Las Vegas shooting, to highly successful executives and world class athletes perform at their best.

Marko Cheseto, a double amputee marathon runner, broke the world record TWICE after completing TIPP.

Chris Nikic worked with Dr. Wood and made world news by becoming the first person with Downs Syndrome to complete an Ironman competition.

Scott Man, a former Green Beret and founder of "Rooftop Leadership" was finally able to overcome PTSD and get back to normal life.

Rebekah Greogory, Boston marathon bombing survivor.

The Inspired Performance Institute was built on this simple phrase, "There's nothing wrong with you, there's nothing wrong with your mind."

During your lifetime some events and experiences have created some glitches and error messages for your mind, and all you need is a reboot.

Dr. Wood has written two books about his research including the science about how our minds work and why we experience our own unique perspective of the world. Both books, *You Must be out of your Mind* and *Emotional Concussions*, are focused on how we can all make the desired changes by allowing our mind to reset and reboot.

He has spoken on these topics domestically and internationally. He has been a guest contributor on Joe Polish's "I Love Marketing," a speaker for Spartan Leadership, James Wedmore's Innercircle, Shanda Sumpter's MasterMind among many other speaking engagements.

A podcast guest favorite, Dr. Wood has appeared on over 100 podcasts and many times has been the top 20% listened to show; among some of the great shows, he's appeared on Dave Aspery's Bulletproof Radio, SpartanUp Podcast, Unbeatable Mind, Ben Greenfield Fitness, ATP Science Podcast among many more.

"I wanted to create a solution that removed the stigma of trauma. Too many people are afraid to ask for help because of that stigma. That is why we named the program around increasing performance levels. When you eliminate the effects of disturbing or traumatic events, which I refer to as their atmospheric conditions in a person's life, their performance improves both personally and professionally."

Freddie Kim

- I've GOT a mission-focused recruiting company that places military Veteran 2.0 professionals.

- That GETS business owners a peace of mind because their 'A-Teams' are well-led, process-driven, and elevate team culture.
- I want HELP finding innovative ways to easily identify and support struggling military Veterans to eradicate Veteran suicide.

BIOGRAPHY

Freddie is a former Army Special Forces commander and entrepreneur, in the midst of building a mission-oriented recruiting business. Following 14 years of military service, he transitioned to the corporate world but grappled with finding his purpose again outside the military. From his experiences as a corporate leader and an Airborne Ranger and Green Beret with multiple combat deployments, Freddie saw an opportunity to bridge the leadership gap between industry-proven military Veteran 2.0's and corporate America. MilSpec Talent (and MilSpec Government Solutions) was initially started to be a vehicle to help Veteran business leaders hire more effectively, but now they support PE portco's and other owner-operators with no succession plan. Their aim is two-fold — 1) help these businesses build their own A-Teams (like mini-Special Forces teams) to elevate their culture and 2) help Veteran candidates re-ignite their purpose in life following their honorable military service, which is typically to lead and make positive impact. They hope to soon support the Army, and potentially other military branches, in their own recruiting efforts nation-wide. Freddie has a MBA from the Kellogg School of Management, and is the co-president of a 501(c)3 firm, Strong Gray Line, that honors the past (deceased) and present graduates of the West Point Class of 2004 — the class with the highest number of combat-related deaths since the Vietnam War. Lastly, Freddie lives with his amazing wife, 1 yr old daughter, and 3 dogs outside of Fort Liberty, NC. For fun, he loves doing quick workouts, shoot pistols competitively, coach boxing, and go camping with the family. He also enjoys listening to great podcasts and reading self-help books (doesn't everybody?). Eventually, he intends to start a family fund supporting Asian American and Veteran entrepreneurs. Favorite quote- "Speak softly and carry a big stick; you will go far."

BIOGRAPHY

I am an entrepreneur, business developer and strategist, and my life has been a whirlwind professional journey, starting when I was 11 years old. As the child of a single mom, I had a natural draw to entrepreneurship to help our family. Between juggling babysitting work, door to door sales and helping everyone I met who needed a hand, it would be fair to say that I was blessed with learning the value of supportive relationships very early on in life – the more you give the more fun you will have. As a tech exec, board member, and professional speaker, I am constantly encouraging people to get more out of themselves and reach their full potential. Some of my friends call me a CEO whisperer due to the number of business leaders who call me for ideas, advice both personal and professional. All the while I have closed a few hundred million dollars in fundraising, also selling tech products and services to some of the world's largest enterprises. I am also privileged to serve as a board member for some ground breaking tech companies like Software Automation (sewing machine robots- yes robots really are going to take over some of the world), Optios.com (helping the world's most elite performers unlock their brain's exponential capacity using proprietary neuroscience technology), Steady(income robo advisor for America's working class to help them reach their income potential) and now AGI.live - AI that solves the hallucination problem that launches in Jan/Feb 2024. I am proud of the collaborative work with brilliant people that I am privileged to spend time with every day as we harness our positive human energy towards making a positive impact on the world. Our customers included GE, Coca-Cola, and The Home Depot, and we sold the platform to GE in 2015. I was a co-founder and Publisher of PINK Magazine, launching in June 2005 to wide acclaim and 1 million professional women readers. An editorial from Forbes described it as "Fortune meets Oprah." Every year our sold-out events across the nation featured America's most influential women in business on panels which I moderated. I sold PINK in 2010. I was also a co-founder of ZapMedia and InfoGraphix, two Atlanta-based tech companies that transformed the digital large-format on-demand printing industry by delivering a high volume RIPs and garnered 80% market share globally. I am incredibly blessed to be married for 22 years to a brilliant, supportive, loving Dutch guy I met in a hotel lobby in Barcelona. We are DINKS - double income - no kids -- but we do have a fur baby named Apple who is a 21 pound Labradoodle. Remco (the dutchman) and I are learning to invest in start ups especially where we can add value. He is a terrific operator and always has new ways of tackling problem solving and has very strong people management capabilities. He just finished helping to turn around a boutique brand brewery from certain bankruptcy to multi-year profitability and fast growth. I have been in EO for 12 years and on the board for 4 in Atlanta, GA (EOnetwork.org). Lior Weinstein are in the midst of launching our new company so we joined Genius Network and Lior, having already been in Strategic Coach for a year suggested I join too. So I am a member of Strategic Coach since 2021.

Dr. Jarom Ipson

Jarrett Bilicek

BIOGRAPHY

Entrepreneur at heart. After a few "learning experience" brick and mortar business lessons, I uncovered direct response marketing, and the power of selling through great storytelling.

Some of early mentors were Eben Pagan, Dan Kennedy, Jay Abraham, Joe Polish (Piranha Marketing), Frank Kern and other great marketers and info marketers.

In 2010 I took the model of "Info-marketing", "video sales letters, and "results in advance" and launched a website selling an amazing pet stain and odor remover (as a private label) via Facebook advertising.

As the business grew, we outgrew what the original product supplier could bottle for us... so we purchased equipment to start co-packing for ourselves (using the suppliers formula). In 2019 we ended up buying out the entire suppliers company and brands.

This whole process of taking a great product, marketing it well - direct to consumer, and then scaling has consumed most of my time with strategic "operational" tasks needed to continue to not only produce the product, but ship over 250k packages a year.

For 2024, I hired a COO and Ops director who are more suited for managing that logistical side of the business. As they work together to increase our production and fulfillment capacities... I look forward to getting back to my roots; sharing great stories and marketing the brands.

Outside of bottling and eCom, I am an avid motorcycle rider (enduro dirt bikes, Adventure bikes, and street bikes). I also love to collect classic ATV's (Honda 250r's and Banshee's). I am also blessed to have amassed a pretty decent car collection over over 50 domestic sports cars, trucks, and SUV's (from ZL1 1LE Camaro's, to Shelby GT500's Mustangs, to Cadillac V-Series cars, and Corvette ZR1's). I also am working on my private pilots license.

My wife, or daughter, and our 4 dogs currently reside in a northern suburb of Houston, TX, with our eyes set on a second home in the Orlando Area this year.

I look forward to being able to share some of knowledge and experience of building an 8-figure "direct to consumer" product business online with the Genius network, while learning more about you and your business journeys and successes.

I'm so glad to be here and part of this amazing group of people. Thank you for having me.

Little bit about me...I'm short! Like 3 inches from requiring a booster seat short! So short, I don't even know who's bald. The only thing I see when I look up is nose hair. And that's just the women. I'm Joel Weldon's sidekick, business partner, and probably his biggest fan! Joel and I are partners in our coaching business and speaking careers. I lead our group coaching sessions where we focus on specific speaking challenges and topics and invite our members to attend and interact. When I'm not having fun with my Dad, I've got my own monkey business known as the "IMPOSTER SPEAKER," bringing unexpected laughter and fun to meetings, trainings & events by pretending to be a fake industry expert or a FAKE NEW HIRE. Eventually it gets so over-the-top, I let the audience know they've been punked. Once the laughter has subsided, the real message is shared...having fun and not taking yourself so seriously actually makes you more productive. Things could always be worse. You could be working with a Bozo like me! Companies who focus on positive company culture, workplace wellness and engaging their employees absolutely love this. If you're looking for a totally unique positive morale booster, I'm your girl! Jennyultimatespeaker@gmail.com 480-225-0128 @JennyLocklinSpeaker

BIOGRAPHY

After three decades of industrial company experience, John Dalton created Industrial Device Investments in 2017, to broaden investment in and acquisition of industrial products companies. IDI now has four companies. Please visit us at www.idinvest.net. Dalton serves as CEO and chair of Perceptics. Perceptics was acquired from Northrop Grumman in 2006, and formed the cornerstone of IDI. Dalton was active in daily operations for 11 years, but now focuses on capital allocation and strategy. In 2019, Perceptics had a crisis that reshaped the company, starting with cyber-attack and causing cancellation of contracts by Perceptics largest customer. We continue to forge the company for the future. Dalton also serves as chairman of Materials Research Furnaces, LLC, an IDI investment in 2018. MRF builds high temperature furnaces for ceramics, electronic component and other part production. Dalton has focused on building the team and strengthening customer relationships and market focus, and IDI has continued to invest strongly. In 2019, IDI invested in Proton Power, Inc., and Dalton joined the board. PPI manufactures environmental equipment and specialized materials including graphene. Lastly, Dalton serves as chair with Tread Corporation, a global leader in mining equipment manufacturing. Dalton & IDI were recruited by Tread's lender to help reinvigorate the brand, after previous upper management and ownership had been dysfunctional. Previously, Mr. Dalton was with SouthPointe Ventures, a private equity fund in Atlanta, Georgia, acting as the fund's operating partner. Prior to SouthPointe, he has seventeen years of operating experience, starting with Fortune 500 General Electric and Black & Decker, and including senior leadership positions with smaller organizations focused on unique technologies within basic industries. He holds a BSME from Cornell and an MBA degree from UNC. Dalton is involved with a variety of community stewardship causes. In Atlanta, he was volunteer at MUST homeless ministries, and later served on the board and had active involvement with Crossroads Community Ministries for homeless. BIOGRAPHY

I love where I went to college. I have a Bachelor of Science in Electrical Engineering from MIT as part of the graduating class of 1986. Does anyone remember Heathkit? That was my passion in High School and led to me getting that degree. While I may not have directly utilized my degree in my professional life, I consider myself fortunate to have been accepted into a prestigious institution that prioritized problem-solving skills over mere memorization for exams. Yes, I still open things today just to see how they are put together even though they claim there are “no user serviceable parts inside.” I applied that problem-solving skill to turning around a family plastic packaging business after my father passed away in 1993. The business was headed for certain bankruptcy at the time. I had my own way of describing its problems, but in general I think Clate Mask covered it best. (Look up his talk at the Genius Network offices entitled “From \$10 Million to \$100 Million: Three Big Lessons for Growing and Scaling Your Business”) I knew I was not an operator, so I needed to hire one. I found someone to be COO that the business could grow into. He came off a non-compete from a \$300M business with 13 facilities. When he joined us we were a troubled \$45M business with only 4 locations. When I sold the business in 2008 for \$500M (13 years later) we had become a \$300M business with 15 locations. Yet, the first-best move I made at the time was hiring a change agent for the short time in between when I fired the previous COO and hired the new COO. It prepared the foundation for the success that would be created for those 13 years ahead. The second-best move was a change in mindset from being an “owner” to an “investor”. Though those words did not change anything in the “real world” they allowed me to see the business in a different light. The third-best move I made was partnering with the right Private Equity firm in 2004. I was able to take some money off the table, beginning a slow shift to helping other entrepreneurs change the world. In those short four years until the sale of the business I was able to 10x the cash I kept in the business. In 2015, I exited the plastic packaging industry entirely after selling a business in The Netherlands for 42M €. That business started with a small group of people in 1995 and unknowingly began a theme of partnering with awesome people trying to build great things. One of the most exciting rides was with Bron Media Corporation, which included Bron Studios, Bron Animation, Bron Digital, and others. From its humble start in 2011, it saw records set with the largest sale at a film festival (for BIRTH OF A NATION sold to Fox Searchlight), the largest television deal (for the untitled Aniston-Witherspoon drama sold to Apple), and highest grossing R-rated film JOKER taking in \$1,074,251,311. To date, Bron has 32 Academy Award Nominations and 6 wins, including BOMBSHELL, ROMAN J. ISRAEL ESQ., FENCES, and JOKER. Then COVID-19 emerged, abruptly halting production and closing theaters. Then a market arose no longer valuing growth over profitability. Then a writer's strike happened. All of this led to filing for creditor protection in 2023. The good news is that I see a tax holiday coming soon for myself! More seriously, the good news is that lack of debt and massive diversification still holds a world of opportunity for the future. Today I am invested in over 200 startups across many different sectors including Blockchain / Crypto, Aerospace, VR / AR, SaaS, Finance, Education, Real Estate, AI/ML, Payments, Hardware, Cleantech, Healthcare, Consumer, Productivity, and more. Some are direct and very focused investments, others are through SPVs leveraging other people as mentors and connectors. This does not include the Fund level investments I have made. In this area, I am grateful to have very long term relationships with Lux Capital, Whitebox Advisors, Elliott Associates, and others. I have been on the Innovation Board for the XPRIZE Foundation. Seeded money for what turned into the Global Learning XPRIZE. I was a member of TEC 100 which turned into Vistage. I am now an emeritus member of TIGER 21. I am currently a member of the 25k Group at Genius. I was SCUBA certified in 1978. Love roller coasters. Have a gun collection for a home range. I still maintain my Triploi membership and am certified to fly Level 2 High Powered Rockets. In summary, if family business, succession, private equity, selling your business, managing a “family office”, finding a new life past your “career”, investing, exploring new technologies, or anything else above, is anything of interest to you, reach out. Let's talk. I am known for being the one person in the room that is going to say something different from everyone else. If I can make

your path shorter or give you a different perspective, that would be amazing. I am NOT looking for deal flow or any other longer term time commitments, so please be respectful of that fact.

- That GIVES entrepreneurs a clear path to grow their business without growing apart from their spouse
- That GETS Couples deeply connected through individual and shared growth, mutual respect, and presence.
- I want HELP continuing to scale my business.

BIOGRAPHY

I am a speaker, author, and coach for entrepreneurs and their spouses. I work closely with EO, YPO, EOS, and other entrepreneurial networks to support their members and spouses/partners. My work is derived from observing so many entrepreneurs struggle in their personal relationship, then going through my own divorce in 2012. I have a heart for both the entrepreneur and the partner because I've experienced being the more ambitious, driven partner in my marriage. Then, in my subsequent relationship, karma caught up quickly when I found myself completely lost in the gravitational pull of my partner and his business. My second book, *Grow Your Business Without Growing Apart* introduces The Alpha and Omega Framework, which allows growth-minded entrepreneurs to create a fulfilling love relationship that excites them as much as their business. I live in Chicago with my two sons, Will (16) and Luke (14). We've recently blended our family with my partner Joe and his daughter Faith (20). After 10 years of being a single mom, it's insanely righteous be in partnership again. I love our funky little family so much! My sons' busy sports schedule forces me to keep my business ELF. This leaves us plenty of time to be at their games and supporting them on this home stretch of having them at home! 🥰

Kimberly Shannon Murphy

BIOGRAPHY

Kimberly Shannon Murphy is Hollywood's go to Stunt Double for Premier Silver Screen actresses. Her resume is loaded with top box office films such as *The Lone Ranger*, *Oblivion*, *Jack Reacher*, *Hunger Games*, *Savages*, *Men in Black 3*, *Knight and Day* and the list goes on. As an award-winning stuntwoman, Kimberly Shannon Murphy was intimate with pain. For years, she propelled her body through dangerous spaces—medicating the trauma of her childhood sexual abuse with the adrenaline rush that came from pushing herself to the absolute limit. But as Kimberly learned, no matter how much you suppress your past, it always catches up with you. In her new book, *Glimmer*, Kimberly details her remarkable journey to the top of her field as a Hollywood stuntwoman for many A-list celebrities, including Cameron Diaz, Charlize Theron, Angelina Jolie, Taylor Swift, and Sandra Bullock, while carrying the pain of her childhood of sexual abuse in a family that refused to acknowledge its reality. In her beautifully written, unflinchingly honest memoir, Kimberly reflects on her past and present, chronicling her path to recovery and calculating the long shadow of trauma. *Glimmer* is the story of one woman's quest to reclaim her life and to shine a spotlight on the dark topic of intergenerational familial abuse. As Kimberly reveals, being strong isn't about getting your black belt, leaping out of four-story buildings, or putting 200-pound stuntmen in chokeholds—it's about waking up every single morning and choosing to love yourself, no matter your history. A heroic and hopeful story of stolen innocence, pain, courage, and survival, *Glimmer* is an emotional roadmap for others who have suffered abuse and childhood trauma, offering them hope, healing, and inspiration.

- That GETS authentic connection with their perfect target market audience, inspiring them to take action.
- I want HELP getting the guts to make the leap from one business to the next and to know when and how to do it.

BIOGRAPHY

I spent 22 years building my family's business and we ultimately sold in 2020. I'd brought EOS into our business in 2018, and decided to become an EOS Implementer as my next step, which is what I do now, and I love it, but I'm also ready to start a new business which is what I need help with from this group. After selling the business, I wrote a book about my journey of going from a 15-year old teenage mom to a successful CEO and Entrepreneur. I thought my next book/talk was going to be about my healing journey, because the business I built was with my dad who was sexually abusive to me when I was a kid. My healing journey has included therapy, coaching, Tony Robbins events (every type), AA, ACA and is ongoing. I feel more at peace and healed than I ever thought was possible, and I'd like others to experience this same internal freedom. I love EOS and everything it did for my family's business and what it does for my clients. Being an Implementer has given me incredible coaching and facilitation skills as well as time and space to do some deep self-discovery, healing work on my own life and expand/develop professionally. I have time and space now to start what I'd love to do next, which is why I am here. The thing that I love to do the most in the world is to speak and I also love to help others build their perfect talk for their product or service, or if they have a powerful message they feel will help change the trajectory of other people's lives. I could really use help, support and feedback to help me with these next steps in my life.

As you can imagine, being an agency owner for as long as I have, my nightlife is pretty wild. I live in a suburb of Toronto with my high school sweetheart, Jacqueline, my four kids and my dog, Rhett. Crazy stuff, right? But in truth, my work has led to strange experiences. A few of my offbeat adventures include having a Boeing 737 for the day, being berated by a Billionaire, working with NBA players, and having a television commercial campaign blow up in the national press...those types of things. I kicked off my entrepreneurial journey at 23 with no money and no clue. 17 years later, my agency has - Delivered 2,000+ projects - Helped 300+ clients in 29 industries - Worked in 6 countries - Won 32 awards 🤔 TLDR: If you have a B2B company, I can help you take the guesswork out of your marketing, create a damn good reason for prospects to buy, and make you look good so you can sell more, faster and easier.

BIOGRAPHY

I have dedicated the last two decades of my life to providing the best hiring practices in leadership search and consulting. I was fortunate that my first job after graduating with a Bachelor's Degree from Northern Arizona in Business Administration was with the Fortune 50 Recruiting firm Allegis Group / Aerotek. This experience provided me a solid foundation for understanding both best in class business systems and selection processes. In January of 2002, I founded my first recruiting/search firm, Job Brokers, Inc. Together with my team, we went on to hire more than 30,000 people across a wide swath of industries including engineering, manufacturing, education, healthcare, distribution, mining, finance, technology, and apparel. We proudly grew our annual revenues in excess of \$35 million and expanded into other divisions and brands. The most notable being Y Scouts in 2012. Why Y Scouts? Somewhere along the line in 2010-2011, the traditional contingent hiring model wasn't allowing me to help organizations solve the deeper rooted issues they were facing around their hiring practices. My desire to help organizations with the root of their challenges, along with the lack of meaning in my work, pushed me to create the first ever purpose-based leadership search firm. In 2015, I sold all my interests in three traditional recruiting companies to more aggressively pursue building Y Scouts and Purposed-based Leadership Search. I am incredibly proud to be part of the Purpose Movement and a founding member of the Y Scouts team. I love the personal development I benefit from while working with Conscious Leaders. I enjoy helping them and their organizations continuously improve and succeed as high performing cultures and teams. The root of our work goes deeper – towards individual purpose, building true relationships, relentless learning, love, and their ultimate intersection. The only sustainable business strategy is hiring the right leaders and team members. I find it fascinating that as our world gets more complex with technological breakthroughs, the demand for great leaders and people is at an all-time high. A little more about Max: • Husband to Bryna and loving Father/Stepfather to 5 amazing kids. • Interested in anything that involves going fast with the possibility of catching air • An avid golfer and played or coached football, basketball, baseball, and soccer. • Seahawks Fan – Go Hawks! • Capable of spinning pretty much anything on my finger • Snowboarder since the first air Burton Air Snowboard • 2015 Spirit of the Gumball winner • Enjoys traveling across states as well as across countries • Would take anyone on in backgammon

I've GOT a Next Level business coaching firm for organizations who want to go "beyond EOS"

- That GIVES founders & leaders of entrepreneurial organizations a proven, principled approach that is much more advanced, customizable and flexible than a prescriptive system...
- That GETS them more freedom, joy & peace while optimizing enterprise value & multiplying impact.
- I want HELP finding ways to expand awareness of the Next Level Growth Approach, brand, and how we're different. This includes finding and connecting with the right podcasts and other outlets. I've spent the last 9 years of my career working through the evolution, and am now ready to expand awareness as I complete the writing of my third book, Five Obsessions of Elite Organizations.

BIOGRAPHY

In the first 15 years of his career, Michael took over an \$8M family manufacturing business which he grew to \$45M in revenue with over 200 employees during his 15 years as President & CEO.

Being tied closely to the housing market and due to a significant betrayal from a business partner, who eventually served time in federal prison for embezzlement and fraud, during the Great Recession of 2009-2010, Michael lost it all.

Late in 2010, Michael leveraged all that he had and started a new business. It was during the startup of his new business that Michael was introduced to the book Traction®. In Traction, Michael found many of the same tools and concepts he had used in the past, but this time as part of a more holistic system that filled in many of the missing pieces he experienced when he had tried the "do-it-yourself" route earlier in his career.

Shortly thereafter, Michael began implementing EOS® as the basic foundation in his new business. With EOS® as the foundation, Michael then used his past experience with other systems and concepts to plug the gaps that he found to exist in EOS®, layering on strategy and cash management tools from Scaling Up and Michael Porter; recruiting and hiring A-Player playbooks from Topgrading; and other advanced business tools he had learned or created over his career and from his time in YPO. This customized approach allowed him to grow the business rapidly and in 2015 make the Inc. 5000. Running the business on a complete and custom-tailored system gave Michael the entrepreneurial freedom to eventually exit the business and focus on his true passion: Taking all that his entrepreneurial life has given him, sharing it openly and vulnerably, and in doing so giving it all back as a full-time business guide.

From 2015 until 2020, Michael was a record holding Certified EOS Implementer®. In an effort to learn and grow so he could offer more value to his clients, he also became a Certified Scaling Up Coach, and a Certified Pinnacle Business Guide. Frustrated by what he saw as an overly prescriptive, "one-size-fits-all" approach to business operating systems, Michael left EOS® and created Next Level Growth, a Phoenix-based firm of Elite Business Guides, all of whom are former Owners, CEOs, or Presidents of businesses with at least \$10 million in revenue and 50 or more employees.

Michael and his team of Guides share from their vast knowledge and years of experience in the trenches of the entrepreneurial world to help their clients build elite organizations and bring their dreams to reality. Rather than offering a one-size-fits-all solution, Next Level Growth focus not on the system, but on the user, their unique circumstances, and the outcomes they desire. Next Level Growth Guides help their clients work through a flexible framework call the Five Obsessions of Elite Organizations® to build a customized, holistic operating system focused on results that can only be successfully guided by someone who has lived through it all. In the end, it is about helping entrepreneurs not only earn a meaningful Return on Investment, but more importantly, a Return on Life.

In 2017 Michael wrote about his incredible journey from success, to collapse, to rebuilding based on lessons learned in RISE: The Reincarnation of an Entrepreneur, In 2023, Michael published his second book, The Path to The Pinnacle, co-authored with friend and co-founder of Pinnacle Business Guides, Greg Cleary.

Michael and his wife of more than 30 years, Elizabeth, have two adult sons and live in Mesa, Arizona with their french bulldog, Fifi.

Professionally, I am writing my third book, and I have been looking for ways to increase my connections with others in the business community, in support of my own goals for increased reach and impact.

Part of what's next for me is to develop thought leadership in providing youth / young adults with the skills, tools, and perspectives to growth both leadership and business skills in North America and Europe.

BIOGRAPHY

Mike Agugliaro is a lifelong student of martial arts, human performance, and the transformation of potential into mastery. Mike started his professional career as an electrician and soon discovered that he'd rather work for himself than as an employee. He started Gold Medal Electric with a business partner. The early years in the truck were a challenging lesson that he didn't want to grind out the long hours in cold basements or hot attics. After his business partner almost burnt out and quit, Mike decided to transform the company by applying his passion for education and mastery to his business. In just ten years, he grew the company, rebranded Gold Medal Service, from under \$1 million to one of New Jersey's largest home service companies, generating over \$32 million a year with 200 employees and 165 trucks. In 2017, the company was acquired by a private equity firm for an industry record-setting buyout. Mike signed the papers and walked away from the company the very next day. He switched his focus from running a home service company to helping other home service companies, and he grew his next business, CEO Warrior, into an 8-figure success story that shattered industry perceptions. CEO Warrior is a coaching, training, and implementation organization that teaches best practices, systems, and business strategy to home service companies (including HVAC, plumbing, and electrical companies). In less than 4 years, the company rapidly grew to serve hundreds of clients in 42 industries and 5 countries around the world. Collectively, those clients generated more than half a billion dollars in additional revenue from working with CEO Warrior. In 2020, Mike yet again defined industry conventions when CEO Warrior partnered with a private equity firm (even in the midst of a pandemic and other organizations were shutting down), which launched the company to yet another level to serve the industry. Mike is also the a founder of another company, The FuDog Group, a human performance training company that helps people discover and achieve their potential in life, career, wealth, and fitness. Within its first week of operation, The FuDog Group launched its first training and closed nearly 6 figures in revenue from a single offer. In 2022 Mike once again had more to build and started a partnership company called Business Forge. This is a company where we take equity in companies with the soul purpose to grow to a legacy style exit for good hearted business owners. Mike is a relentless creator with over 25 books written (and several more in production), countless videos, and a strong social presence. As a speaker, he commands 5-figure fees and has shared the stage with authors and experts like Jay Abraham, Brian Tracy, Larry Winget, Dean Jackson, Robin Robins, Mike Michalowicz, Tim Grover, and many more. Mike is also a relentless student, studying everything from energy healing to copywriting in a never-ending quest to soak up knowledge and gain mastery. Mike has perfected the art and science of personal human performance, and applies what he learns in all aspects of life, from family and relationships to health and fitness to career and wealth. When he's not building businesses, writing books, or studying, Mike is practicing in his dojo (he holds an 8th degree Black Belt in Jinsei Ryu Budo). Mike lives at the Jersey Shore with his wife (Jennifer) of 38 years and two children (Michael, 24 and Katelyn, 22).

That GIVES purpose-driven entrepreneurs FREEDOM to fully step into their roles as CEOs, and hand off the details of driving sales events and building the teams.

That GETS you unparalleled outcomes: highly engaged teams and events that resonate globally.

I want HELP to connect and partner with leaders who are ready to shed the burdens of leadership and sales by leaning on a trusted outside resource.

BIOGRAPHY

Hey, it's Narelle and well growing up in rural Australia, where almost everything is trying to kill you (kinda true). Those early lessons shaped who I am today—someone who deeply believes in the power of grit, authenticity, and human connection. I've been blessed to have super humble beginnings that somehow led me to making a global impact through strategic business consulting and heartfelt philanthropy. One of my greatest passions? Working with recovery programs - the best decision I ever made was getting sober 24 years ago....it has had me speaking in front of over 3,000 women at International conferences and bringing hope to sex-trafficked children in Brazil, a mission that fuels my drive to create positive change.

So it's no wonder I come alive in the world of business & personal development, especially when partnering with heart-centered, ambitious leaders who believe their work can touch millions. There's nothing quite like the magic of strategizing with CEOs to refine the customer journey and dive deep into the psychology of what audiences truly crave. Business strategy, for me, is more than just numbers; it's about creating experiences that matter. Getting messages years later that say "Because of you....I changed my life, took a risk, etc.

My home is wherever my feet are on the day —whether it's the golden beaches of Carlsbad, the lush, tropical warmth of Queensland, or in Brazil, extending a hand to those in need. Never have I found a language my smile couldn't interpret, and connecting with people through genuine warmth and understanding is something I hold close to my heart.

The style I bring to the table is kind, straightforward, and no-BS. We either like each other or we don't.

And when we do, I'm all in, because together, anything possible!!!

So if you see me around, say hello. I'll be the short one who's always ready to share my food or listen to your story.

We call a 42-acre guest dude ranch in Marble Falls, Texas, home—right in the state where I was born. Sharing our lives and this land with others is something we truly enjoy. We both work hard, not out of obligation, but because we genuinely love what we do.

My journey includes 17 years in corporate America, owning eight small businesses, and spending the last two decades delivering keynotes, workshops, and executive coaching. I've also authored four books on business. Like most, we're just trying to be a bit better today than we were yesterday.

"All of us Entrepreneurs have two lives: the life we live, and the longed for but unlive life locked up within us".
(inspired by Steven Pressfield).

I work with Entrepreneur Owner-Managers (EOMs) and the businesses they own to unlock their potential and experience their freedom. Including (especially) those who start with little or nothing. Since I believe Entrepreneur Owner-Managers are the most powerful Pro-Social and Pro-Economic Force on the planet, I work exclusively with them. Bigelow is a unique team of practitioners completely committed to creating lasting, massively positive experiences for Entrepreneur Owner-Managers (the likes of which most never dreamed). We accomplish this by listening, learning, empathizing, and ultimately sharing our domain scar tissue with them on how to build and capture Enterprise Value. I am an active Business Owner with other seasoned operating Entrepreneur Owner-Managers who have skin in the game in their enterprises, not a "passive investor" (investors diversify; owners concentrate, right?). Current entrepreneur ownership interests include the creative renovation of important historic property bringing new life to Market Square, Portsmouth, and in a large number of early stage emerging enterprises leveraging exponential technology especially relating to health-span, and education. I love the juxtaposition between the historic and the new, state of the art. Restless cruising sailor leaving a wake from Newfoundland and Labrador, Nova Scotia, Coast of Maine to the West Indies; from New Zealand to the sub Antarctic, Ireland, Scotland, and England, so far. I am most often found in or on the Atlantic Ocean, alternating frequently between my cabin in the Out Islands of the Bahamas, and residence in New England USA. Our on line blog/podcast called POSITIVE ENTERPRISE VALUE has candid one on one interviews with high performing EOMs who generously share their experiences--successes and failures-- to create "breadcrumbs in the forest" for the rest of us. www.positiveenterprisevalue.com. At the age of 18 I went to live with Tibetan monks in the foothills of the Himalayas. I was fascinated with studying communication and wanted to help them to learn English. The challenge was that we didn't have any common language so we had to communicate non-verbally. On my return to the UK I studied acting and then set up my communication business, where I built unique scientific research on business communication, which I have been teaching to clients ever since. I have a wonderful wife and two amazing children. I live near London in the UK.

I have these gifts for which I'm eternally grateful (and did not earn): I'm an American with mid-western parents who continue to love each other, raising us to think for and believe in ourselves; I had nothing significant to fear growing up other than Sister Agatha; my father allowed me to fail and had the foresight to give me the space to lift myself up. I'm a father of three, ended a difficult marriage of 22 years, and am now re-married to the love of my life. Most of my career was in carpet manufacturing. In that industry, I was the President of a publicly-traded company called Fabrica. I was fired in my mid-30's, retired, then lost everything during the '08 recession. With no job and a family of five, I took \$42k of my last \$60k and started my existing business in 2011. Looking back, my failures have shaped who I am today.

So many people need help establishing a better quality of life for themselves, but having the proper tools and knowledge is the key element. I preach the importance of goal setting, having a strategic plan and maintaining the right mindset in order to succeed. I've learned a lot through my 12 years as a professional athlete that has helped elevate me in the sport as well as in my business endeavors. I compete in the fitness division which means we are judged on our physiques as well as a two minute routine that is based on gymnastics, tumbling, dance choreography, strength moves and my style of routines include breakdancing and Bboy tricks. My athletic career can be summarized as the "Comeback Kid" having broken almost every bone in my body, undergoing 18 surgeries in my life and winning my first World Championship title 9 month after breaking my neck and competing in that very competition with a torn ACL/MCL from an injury suffered weeks out from the event. I feel there's always a way to accomplish something, but you have to be willing to navigate new paths when problems arise and think out of the box in order to achieve what you're going after. Through so many experiences in my competitions as well as business ventures I have gained a great appreciation for the things in life that we CAN do and I preach the mindset of "You don't HAVE TO, you GET TO" - My H2G2 motto. This simple flip in perception is empowering and can change the course of your daily habits. In my spare time I love hanging with my boys and doing anything outdoors or active. Snowboarding is my absolute favorite thing to do even though, interestingly enough, I hate the cold. My secret to happiness is laughter and you can find me scrolling memes on the daily or hanging around funny and happy people who bring good energy and positive vibes. **Featured in Oxygen Magazine, Muscle & Fitness Magazine, Muscle & Fitness HERS Magazine, Flex Magazine, Fitness RX Magazine, Shape Magazine, Status Fitness Magazine and the Movie documentary Generation Iron 3 Website: FitWhitJones.com Email: FitWhitJones@gmail.com Instagram: @whitneyjones_ifbbpro Facebook: <https://www.facebook.com/WhitneyEstesJones> Twitter: @whitneyjonesaz
